

As an engaged participant at South Canyon Baptist, you are welcome to use and become part of The Hub. When you log in, you will be able to see your own profile information, the groups you are participating in, the positions you hold, your own giving record, events you might be interested in, and be able to easily communicate with your church community. You can update your profile information to make sure our records are correct.

How do I use the online community?

Is my information safe and private on The Hub?

While our website is public, our online community is private in that only those who have login and passwords assigned to them can join in. It does contain a database of anyone on our mailing list, but most people you will see are engaged at South Canyon Baptist at some level. In order to be issued a password, a person must be approved by the church staff first. In addition, none of the data contained in The Hub will show up on any internet search engine. Individual members have the ability to set and manage their own privacy settings in order to personalize whatever level of privacy they desire. After your request has been accepted, you will be given login and password information. You can decide whether to participate and whether your information will be "listed" to other members of The Hub or "unlisted." Unlisted information is not seen by anyone beyond our staff and key leaders, and only when necessary for group administration or for a specific task. All information on The Hub is set to default to 'Friends and my Group members' only unless you elect to change the setting.
